REF: 672

Height: 101.56 cm (40")

Width: 55.86 cm (22")

Depth: 43.16 cm (17")

Description

Apollo the god of sun, music,poetry and medicine exists in both Roman and Greek mythology. A half size marble sculpture, it's contraposto has been much admired, appearing to position the figure both frontally and in profile. The arrow having just left Apollo's bow and the effort I pressed on its musculature still lingers.
